1 National Food and Health Plan

The Belgian experience

Federal Public Service of Public Health, Safety of the food chain and Environment

 22 sep '06, JASP
Isabelle Laquiere, Nutritional Policy expert

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

2 National Food and Health Plan

A science-based, multi-disciplinary approach of obesity and chronic non-communicable diseases related to unhealthy diets and lack of physical activity

Cette présentation a été effectuée le 23 octobre 2006, au cours du Symposium "Prévenir l'obésité : les ingrédients d'un plan gouvernemental fructueux" dans le cadre des Journées annuelles de santé publique (JASP) 2006. L'ensemble des présentations est disponible sur le site Web des JASP, à l'adresse <http://www.inspq.qc.ca/jasp>.

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

Elaboration of the plan

- Strategic policy options
- Operational Plan
- Organizational structure
- budget
- International developments
- Conclusions

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

Key events:

Oct 2003: Start of Belgian reflections

2004: WHO global strategy on diet, physical activity and health

2004: Creation of Expert Group within the Federal Public Service Health, Food Chain Safety and Environment: Discussion document

2005: Protocol agreement between the different Federal, Regional and Community Governments (13/06/2005)

Jan-Nov 2005: Intensive multi-stakeholder consultation

Dec 2005: Finalisation and approval of the NFHP-B

5

National Food and Health Plan

Methodology:

Multi-stakeholder consultation in 10 fields of action (10 working groups)

- 1. Nutrition of the young
- 2. Undernutrition in hospitals, nursing homes and home care
- 3. Physical activity
- 4. Scientific validation
- 5. Nutritional labelling - Claims - Publicity
- 6. Healthy nutrition
- 7. Breast feeding and infant nutrition
- 8. Micronutrients
- 9. Catering - Horeca
- 10. Information - education - communication

6

National Food and Health Plan

Methodology:

Incorporation of the conclusions of the 10 working groups in the plan

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. Commitment of the private sector
- 4a. Breast feeding and infant nutrition
- 4b. Selective deficiencies and optimal nutrition
5. Undernutrition in hospitals, nursing homes and home care
6. Food intake data
7. Scientific research on nutrition and nutritional behaviour

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

8 National Food and Health Plan

Methodology:

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. Commitment of the private sector
- 4a. Breast feeding and infant nutrition
- 4b. Selective deficiencies and optimal nutrition
5. Undernutrition in hospitals, nursing homes and home care
6. Food intake data
7. Scientific research on nutrition and nutritional behaviour

9

Communication

Objectives:

Creation of a reference point for clear and correct information on diet and physical activity in order to allow the public, both consumers and professionals to have access to a validated source of correct, science-based and coherent information

Reference Point

10

Communication

Objectives:

Development of nutritional objectives for the Belgian population based on scientific principles and available intake data in consultation with the competent regional and community governments and the civil society

Reference Point
Nutritional Objectives

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

11

Communication

Objectives:

Provision of guidance to public and private institutions and organisations on the principles for successful actions in the framework of the NFHP-B, strengthening the coherency and consistency of nutritional messages to the population

Reference Point
Nutritional Objectives
Guidance

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

Methodology:

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. Commitment of the private sector
- 4a. Breast feeding and infant nutrition
- 4b. Selective deficiencies and optimal nutrition
5. Undernutrition in hospitals, nursing homes and home care
6. Food intake data
7. Scientific research on nutrition and nutritional behaviour

19

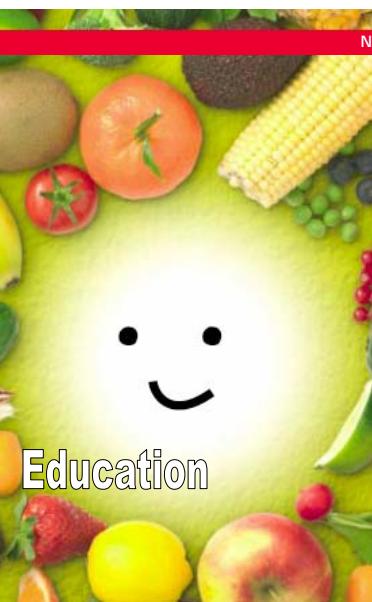

Environment

Objectives:

Improve education on food and nutrition

At all levels of the educational system

Especially in health care workers and other professions

20

Environment

Actions

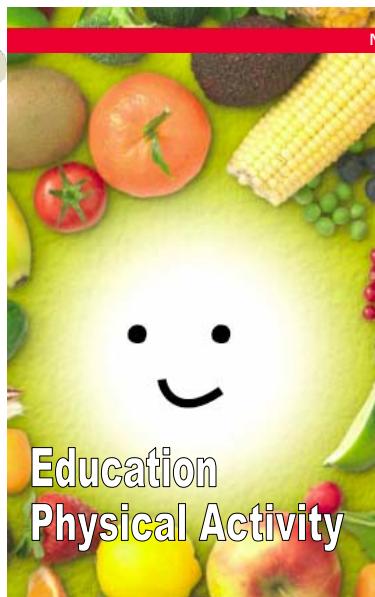

Create working group with representatives of domain of education to adapt curricula to generate recommendation for a module on healthy eating on all levels of education and also for health professionals (in coop with communities)

- website as communication channel to support

21

Education Physical Activity

Environment

Actions

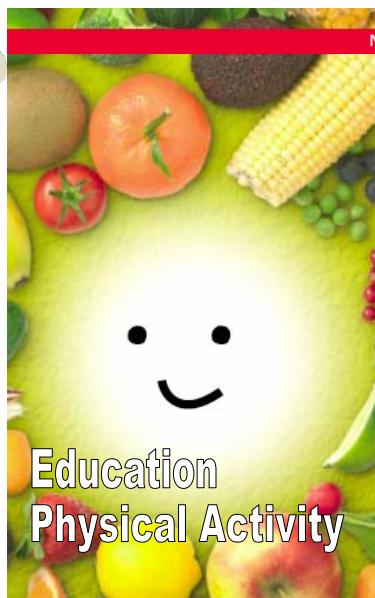

- guidelines for school meals to improve nutritional quality

(create ad hoc group)

- yearly conference to stimulate debate on healthy eating and lifestyle within school environment: exchange of best practices

22

Education Physical Activity

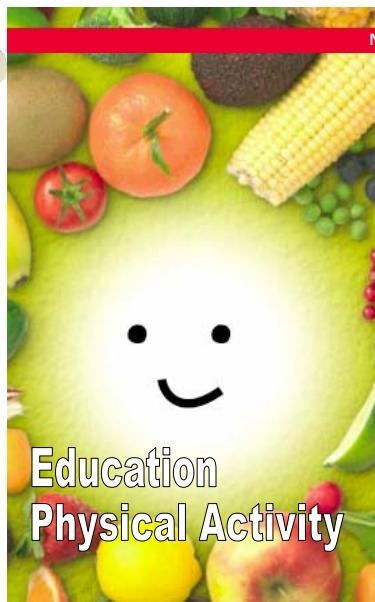

Environment

Actions:

- create guide in collaboration with the responsible sector federations to sensibilise health professionals and to improve the dialogue with the patient

- improve the access for a dietary advice and other interventions
(concensusconference in 2007)

23

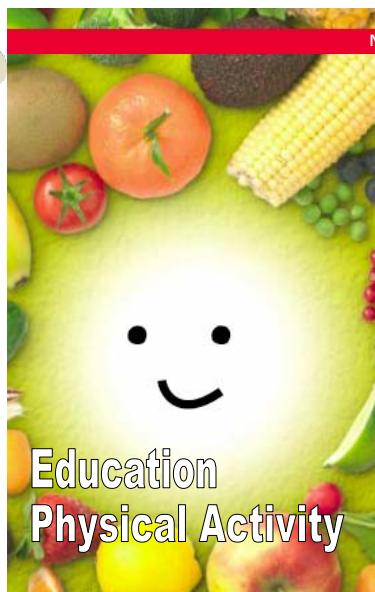

Environment

Objective

- stimulate actions and initiatives that promote physical activity to obtain a certain level for all individuals at all levels of society
- Exchange practices that promote physical activity

24

Environment

Actions

- Ministerial circular letter to communities, regions and municipalities to encourage actions in relation to sport and infrastructure and road safety
- information on website
- workshops

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

25

National Food and Health Plan

Environment

Actions

'Commune en forme'

Jury: logo committee

Minister will financial support the municipalities selected by the jury

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

26

National Food and Health Plan

Methodology:

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. **Commitment of the private sector**
- 4a. Breast feeding and infant nutrition
- 4b. Selective deficiencies and optimal nutrition
5. Undernutrition in hospitals, nursing homes and home care
6. Food intake data
7. Scientific research on nutrition and nutritional behaviour

27

Sensibilisation

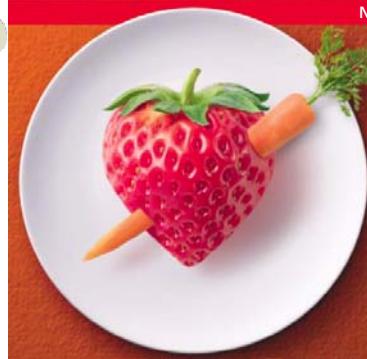

Private Sector

Objectives:

Increase awareness about healthy nutrition for those professionals involved in food processing and product development

Promote the application of the principles of the NFHP-B by mass caterers, horeca and food industry

28

Sensibilisation Composition

Private Sector

Objectives:

Increase availability of foods, meals and menus enabling consumers to select a healthy diet

Improve the nutritional composition of foods, meals and menus

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

29

National Food and Health Plan

Private Sector

Sensibilisation Composition

Actions:

Inventory of commitments regarding the composition of food stuffs, dishes and menus

Yearly report with initiatives and realisations

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

30

National Food and Health Plan

Private Sector

Sensibilisation Composition Information

Objectives:

Increase availability of information on the nutritional composition of foods, meals and menus and the role they play in a healthy diet

Identify the necessary information and requirements for consumer education (including claims)

31

Sensibilisation Composition Information

Private Sector

Actions:

Recommandations for improving labeling aspects

- nice to know aspects
- obligatory aspects
- nutritional labeling

WG labeling within Advice Council of Federal Public Service

32

Sensibilisation Composition Information

Private Sector

Actions:

Provide input on the list of generally accepted claims based on sufficient scientific grounds and to support discussions on European level

WG labeling within Advising Council of the Federal Public Service

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

33

**Sensibilisation
Composition
Information
Auto-control**

Private Sector

Objectives:

- Publicity and advertising in line with the principles of the NFHP-B (auto-control)
- Avoidance of unhealthy lifestyle messages
- Exploration of role of media for disseminating messages in line with the NFHP-B

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

34

**Sensibilisation
Composition
Information
Auto-control**

Private Sector

- stakeholder meetings
- Advice council Food policy within FPS
- WG labeling, claims and public
- WG Food policy
- WG Consumer matters
- yearly reports with initiatives

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

35

National Food and Health Plan

Methodology:

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. Commitment of the private sector
- 4a. Breast feeding and infant nutrition**
- 4b. Selective deficiencies and optimal nutrition
5. Undernutrition in hospitals, nursing homes and home care
6. Food intake data
7. Scientific research on nutrition and nutritional behaviour

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

36

National Food and Health Plan

Breast feeding

Objectives:

50% breast feeding at the age of 3 months in 2010

90% breast feeding for 6 months in 2015

25% Baby-Friendly Hospitals by 2010

Coherent breast feeding policy (Breast Feeding Committee)

Sensibilisation

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

37

Breast feeding

Action:

Promotion and support of BFHI by Federal Breast feeding committee

Coherent breast feeding policy

Sensibilisation

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

38

Breast feeding

Objectives:

Application of the WHO code on breast feeding substitutes (WHO 1981)

Improved education of health care workers

Provision of objective science-based and independent information on breast feeding and infant nutrition (Creation of expert committee)

**Sensibilisation
Education &
Expert information**

39

Breast feeding

Action:

Application of the WHO code on breast feeding substitutes (WHO 1981) by Federal Agency of the control of the food chain (FAVV-AFSCA)

Q3 2006: specific control actions

Negotiation with sector when unacceptable practices occur

Sensibilisation
Education &
Expert information

40

Breast feeding

Action:

Food habits on infants, search and solve bottlenecks for the promotion of breast feeding

Conduct a national policy by Federal Breast feeding Committee: development, implementation and follow-up

Sensibilisation
Education &
Expert information

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

41

Iodine deficiency

Optimal nutrition

Solving Iodine issue:

- Iodisation of salt
- Raising awareness
- Appropriate measures in specific population groups (pregnant women, infants, ...)
- Iodine supplementation in pregnant women

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

National Food and Health Plan

42

**Iodine deficiency
Pregnancy**

Optimal nutrition

Iron & Folic Acid:

- Sensibilisation of the population, especially in women at child-bearing age
- Raising awareness with health care professionals
- Information campaign

43

Methodology:

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. Commitment of the private sector
- 4a. Breast feeding and infant nutrition
- 4b. Selective deficiencies and optimal nutrition**
5. Undernutrition in hospitals, nursing homes and home care
6. Food intake data
7. Scientific research on nutrition and nutritional behaviour

44

Optimal nutrition

Calcium and Vit D:

Sensibilisation of the population

Information campaign

Optimal nutrition:

Intake of selected vitamins, minerals and other substances through food (supplements)

Iodine deficiency
Pregnancy
Elderly
Adolescents

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

45

National Food and Health Plan

Methodology:

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. Commitment of the private sector
- 4a. Breast feeding and infant nutrition
- 4b. Selective deficiencies and optimal nutrition
5. **Undernutrition in hospitals, nursing homes and home care**
6. Food intake data
7. Scientific research on nutrition and nutritional behaviour

SPF SANTE PUBLIQUE, SECURITE DE LA CHAINE ALIMENTAIRE ET ENVIRONNEMENT

46

National Food and Health Plan

UNDERNUTRITION

Hospital:

Efficient screening at admission for patients at risk

Appointment in each hospital of a health care worker responsible for nutrition

Creation in each hospital of a nutrition committee

Screening

47

UNDERNUTRITION

Expert Committee:

Creation of a national expert committee on undernutrition

- Advice on best scientific methodology
- Advice on required measures and means
- Advice on transfer of data between different settings
- Advice on accessibility of nutritional interventions and reimbursement

Screening
Scientific advice

48

UNDERNUTRITION

Nursing Homes:

Creation of a manifesto on nutritional care in nursing homes to be included in federal, community and regional legislation

Elaboration of accreditation requirements for good nutritional practice

Screening
Scientific advice
Accreditation

49

National Food and Health Plan

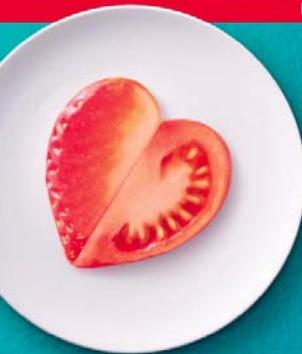

UNDERNUTRITION

Home care:

Sensibilisation campaign of health care workers and patients

Screening
Scientific advice
Accreditation
Transfer of information

Elaboration of a systematic methodology for transfer of information on the nutritional status of the patient between the different settings

50

National Food and Health Plan

UNDERNUTRITION

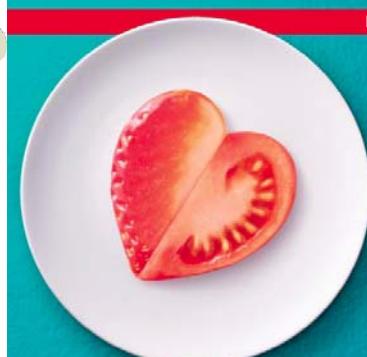

Accessibility of nutritional care interventions

Advice by the national expert committee

Education

Health care professionals

Screening
Scientific advice
Accreditation
Transfer of information
Education

51

Methodology:

Strategic Policy Options:

1. Communication
2. Creating an environment promoting healthy eating habits and physical activity
3. Commitment of the private sector
- 4a. Breast feeding and infant nutrition
- 4b. Selective deficiencies and optimal nutrition
5. Undernutrition in hospitals, nursing homes and home care
6. **Food intake data**
7. Scientific research on nutrition and nutritional behaviour

52

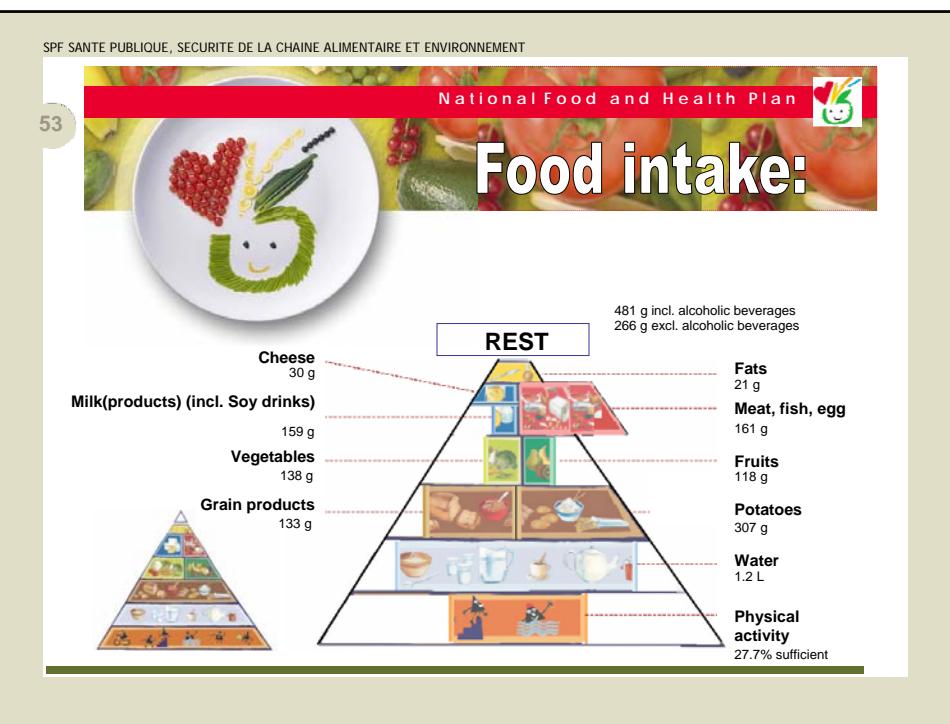

Food Intake

Objectives:

New edition and adaptation of the national food consumption survey to address specifically:

Food Intake Survey

- Specific subpopulations (children, adolescents, pregnant woman, ...)
- Micronutrients (iodine, zinc, ...)
- Undernutrition
- Other food components

55

National Food and Health Plan

Scientific Research

Objectives:

Identification of research needs
in relation to

- nutrition
- food behaviour
- physical activity

Testing of the efficacy of the
NFHP-B

Food Intake Survey
NuBel
Scientific Research

56

National Food and Health Plan

Elaboration of the plan

Strategic policy options

• Operational Plan

• Organizational structure

• Budget

• International developments

• Conclusions

57

National Food and Health Plan

Operational Plan

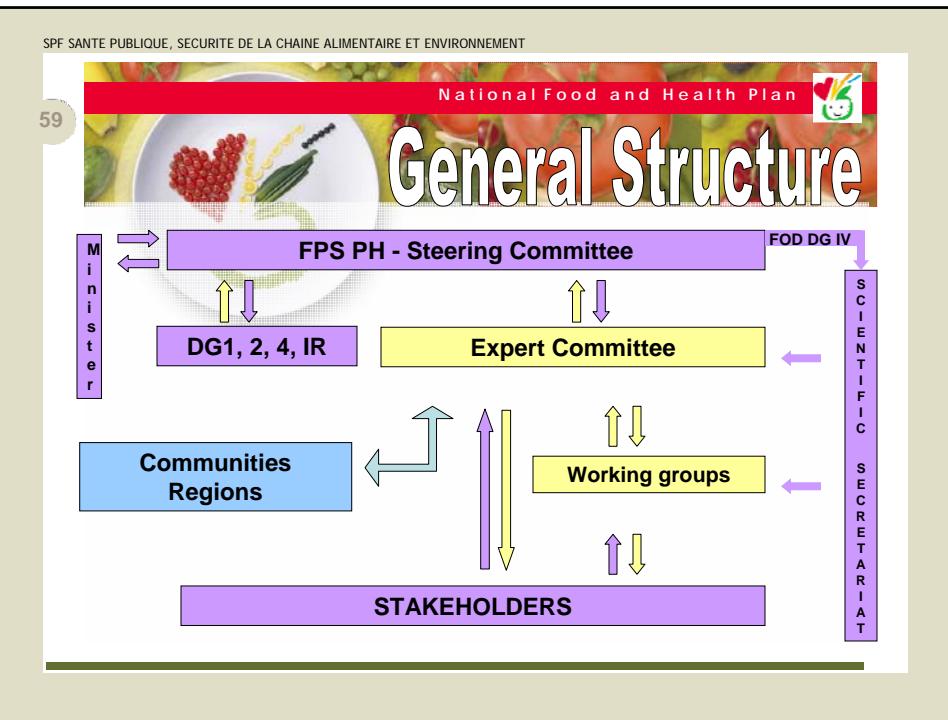

- Expert Committee and structure of NFHP-B
- 60 actions
- Definition of objectives and timings
- 1 president per strategic policy option in charge of working group with all necessary actors and stakeholders
- Monitoring of progress and evaluation by expert committee

58

National Food and Health Plan

Introduction M. De Win

Strategic policy options

Operational Plan

Organizational structure

Budget

International developments

Conclusions

Conclusions

- Well elaborated operational plan with clear objectives, description of actions, timings and responsible ministry / societal actor
- A clear and transparent organisational structure with involvement of actors on the field through consultations
- Detailed impact assessments to obtain the required budgets
- In case of shared / mixed responsibilities, a coherent policy is needed
